

Computer Requirements

For Fax Broadcasting:

Computer (no laptops) with the following:

Operating System: Windows XP Home or Pro

Minimum System Requirements: 1 GHZ processor, 512 MB of RAM, 40 MB of available hard drive space, Super VGA Monitor, Keyboard, and Mouse. Note: You may need higher speed and more RAM if you have large fax telephone lists.

PCI Slot for Fax Modem Board: You may use a single line Fax Modem or if you use a multi-line Rocket Fax Modem, they are approximately 4.5" high and 13" long. More than 1 slot may be needed.

Recommended: High Speed Internet connection, Surge Protector & Battery Backup to protect your hardware, software, and data.
