A violation of any such laws could result in significant penalties and other sanctions. The Seller and the Manufacturer and its Technicians and Representatives are instructed not to offer any legal advice or interpretation of laws regarding the use of this product; however, if any advice or interpretation of laws is given, it should not be relied upon. Prior to buying or using this product, the Buyer/User should consult with an attorney to determine the extent of permissible activities. This is especially important if the Buyer/User intends to use any outbound dialing products (auto dialer, power dialer, predictive dialer, or fax broadcaster) for solicitation purposes (direct marketing, telemarketing, etc.). In addition, the Buyer/User should be aware that he or she may be responsible for maintaining "Do Not Call" lists. If using a "predictive dialer", there are also laws regarding "DROPPED CALLS" or "ABANDONED CALLS". These are calls that are not connected to a live agent. Among other things, those laws may require: 1) not hanging up before a specific number of rings, 2) playing an informational message if the call is answered but an agent is not available, and 3) not abandoning more than 3% of calls. If "fax broadcasting", the Buyer/User should be aware that it is NOT legal to randomly send unsolicited advertisements in the USA. It is your responsibility to determine specifically what is legally required for your operation and to therefore use this product in a manner that will comply with any such laws. After purchasing this product, a refund is not available if any laws are later changed affecting the use of this product.
